

2020 UPDATE TO ASTHMA GUIDELINES

In 2020, National Asthma Education and Prevention Program Coordinating Committee Expert Panel Working Group released updates to the asthma management guidelines. This module will utilize case-based examples to review guidelines for guideline implementation into daily practice, review practical tips for successful asthma management in practice, identify patients who are a good fit for SMART therapy, provide talking points to help families understand this new approach to asthma self-management, and review MOC opportunities for integrating standard of care asthma guidelines into your practice.

Practices receive:

- 1 CME credit
- Meal during the training
- Opportunity to earn MOC part 4 credits by participating in a quality improvement project
