

# Child Life Practicum Application

Dear Prospective Child Life Practicum Student,

Thank you for expressing an interest in the Child Life Practicum Student experience at Connecticut Children's Medical Center. If selected to be a practicum student, you will be expected to be an active observer and learner within the child life department, provide valuable developmentally appropriate play experiences to children and families, and assist with special visitors and events. In return, you will walk away with a strong foundation in child life theory and practice.

Enclosed you will find an application packet containing the necessary forms to apply to the Child Life Practicum Student Program. Please submit your resume and complete the following forms, **emailing them to our office** according to the following schedule.
